

Make-Up Air

CAMPO Equipment
DF2500

Direct Fired 2.5 MILLION BTU Heater

Profitable Heat Solutions *For The 21st Century.*

Make-Up Air Just Got A Little Hotter!

The Campo DF2500 delivers 2.5 Million BTU's with a Max Heated Air Output of 14,737cfm! Campo's unique "Fan First" design eliminates the need for drive belts and other parts known to cause premature failures and unhappy customers. Together with Campo's **Wide-Scope modulation** (from 553,00 to 2,500,000BTU) , you will experience reduced cycle losses, reduced wear and tear on critical components and greater thermal efficiencies! **But, What does that really mean?**

- The DF2500 will be less prone to unplanned shutdowns!
- The DF2500 wont blow cold air into the workspace when starved for LP or NG
- The DF2500 employs the industry 1st, Campo 'Power Leveling Box' which ensures proper operating voltage in unstable electrical environments!
- The DF2500 will help your customer 'custom place' the heat, for greater efficiency.
- The DF2500 will increase your PROFITABILITY!

What's in this box? Campo's Power Management System!

The #1 complaint on higher voltage machines are the *wild power fluctuations* on the jobsite, leading to 'down and abused equipment' and frustrated customers. Campo's Power Management System ensures 'level power' coming into the heater, by increasing low incoming voltage and decreasing voltage when high voltage is detected! **#gamechanger**

KEY SPECS

- ✓ 553,000 btu to 2,500,000 btu, Modulating
- ✓ 14,737 cfm Heated Air Output
- ✓ 1ph or 3ph
- ✓ 230V 60A
- ✓ For Use With Metal Ducting
- ✓ Lockable Casters
- ✓ Forklift Pockets
- ✓ Stackable
- ✓ Very Quiet
- ✓ L111", W31.50", H78.45"
- ✓ 1640lbs

FOR USE WITH OR WITHOUT DUCTWORK STATIC PRESSURE IN DUCTWORK IS NOT TO EXCEED 0.35" W.C.
